REJECTED

Risk: **Very High** | Confidence: **90%**

We reject Karim Ziani's loan application due to extremely high DTI and critical validation failures, as the proposed monthly repayment of 133,333 DZD far exceeds 50% of his total income of 40,000 DZD, resulting in an unsustainable debt obligation. Furthermore, his lack of credit history and low net salary increase his risk profile, warranting a cautious underwriting stance and denial of the loan request.
